

# KX Sliding Gate Opener

## KX平移门开门机

此门机主要用于驱动伸缩门、平移门的专用机器，也可作低速短时动力源、直接拖动执行机构，具有结构紧凑、启动力短大等特点。停电时采用专用钥匙脱离离合器实现手动开门、关门。

This operators can be fitted with gear wheel, and featured with powerful starting strength, capable of overwork at short time. In case in the absence of power, an emergency release key can be operated door manually.

### 主要技术参数

电源 : 220V±20V及380V±38V , 50Hz

输出转速: 48t/min

输出推力: > 450N

环境温度: 随季节气温变化

开门速度: < 14米/分

### TECHNICAL PARAMETERS:

Voltage: 220V±20V & 380V±38V , 50Hz

Output turns speed: 48t/min

Output power: > 450N

Temperature : according to the season and air temperature

Open speed: < 14m/min
